American Board of Neuroscience Nursing Certification Examinations

The American Board of Neuroscience Nursing (ABNN) is the independent, not-for-profit corporation established to design, implement and evaluate a certification program for professional nurses involved in the specialty practice of Neuroscience Nursing and its subspecialties. ABNN is solely responsible for the development, administration and evaluation of the certification programs. Neuroscience Nursing is the diagnosis and treatment of actual or potential patient and family responses to nervous system function and dysfunction across the healthcare continuum. The ABNN advances neuroscience nurses' practice and contributions to neurological health through certification of registered nurses.

Certification in Neuroscience Nursing is the formal recognition of the attainment and demonstration of a unique body of knowledge necessary for the practice of Neuroscience Nursing. In awarding the Certified Neuroscience Registered Nurse (CNRN) credential, ABNN recognizes nurses who demonstrate the attainment of this knowledge through successful completion of the certification examination or renewal recertification through the accumulation of continuing education credits consistent with established policies. The CNRN certification program was developed through the auspices of the American Association of Neurosurgical Nurses (now known as the American Association of Neuroscience Nurses, or AANN) in 1978 to formally recognize professional achievement and to promote excellence in Neuroscience Nursing.

I. ABNN Purposes

- Encourage the study of Neuroscience Nursing and its subspecialties
- Promote and advance the practice of Neuroscience Nursing through specialty certifications
- Determine minimum requirements for individuals who seek certification in Neuroscience Nursing and its subspecialties
- Conduct an examination for certification of qualified candidates
- Provide a mechanism for recertification in Neuroscience Nursing and its subspecialties

II. CNRN Eligibility Requirements

1. The candidate must have current, unrestricted licensure as a Registered Nurse in the United States, Canada or in any of the U.S. Territories that grant licensure utilizing the U.S. State Board Test Pool Exam or National Council for Licensure Exam. Candidates from other countries will be considered if they meet a comparable licensure requirement and can read and understand the English Language. Please note licensure must be verified for equivalency by CGFNS, WES, or Educational Records Evaluation Services (ERES) prior to submitting your application to ABNN. **All candidates for the CNRN exam will be subject to an audit to validate their current licensure.**
2. The candidate must be a professional nurse engaged in Neuroscience Nursing clinical practice or as a consultant, researcher, administrator or educator who has completed and can provide documentation of at least one (1) year full-time (2,080 hours) of direct or indirect Neuroscience Nursing practice as a Registered Nurse in the last three (3) years at the time of application.
 - a. Direct Neuroscience Nursing practice is defined as involvement in the nursing process in a clinical setting where the nursing actions and judgments are focused on a particular individual, family or group of individuals where there is continuing professional responsibility and accountability for the outcomes of these actions.
 - b. Indirect Neuroscience Nursing practice is defined as involvement that includes time spent in clinical supervision of students and/or staff, research or consultation.
3. The candidate must complete the online CNRN certification application at www.abnncertification.org and submit it with the appropriate fees, all of which must be received by the ABNN Office prior to the application deadline.
4. The ABNN does not discriminate against candidates for certification on the basis of age, race, religion, sex, national origin, marital status, sexual orientation, disability or gender identity.
If you have any questions regarding eligibility, please email info@abnncertification.org.

III. Application Deadlines

Applications for each exam administration and the applicable fee **must be submitted** online at www.abnncertification.org by no later than 5:00 p.m. (Central time) by the deadlines listed below:

Application Deadline	Exam Window Begin Date	Exam Window End Date
February 6, 2025	March 1, 2025	March 31, 2025
June 5, 2025	July 1, 2025	July 31, 2025
September 4, 2025	October 1, 2025	October 31, 2025

Candidates are encouraged to submit the application and fee online well in advance of the deadline to allow time to supply any additional required information noted during the application review process. ABNN reserves the right to request additional documentation to verify experience eligibility. Deficiencies cannot be corrected after the deadline. If paying by check, complete the application online, hit "Pay via Check" and mail the check including all of the information below:

Payable to: ABNN
 Address: PO Box 88019 Chicago, IL 60680-1019
 Amount: (see Fees section below)
 Applicant Name:
 Reference Number: (listed on application)

Faxed applications will not be accepted under any circumstances. Candidates should keep a copy of the application for their records. If you need assistance completing the forms, or have questions about the status of your application, contact ABNN toll-free at 888/557-2266.

IV. Examination Application Fees

If paying by credit card:

AANN Member:	\$300
Non-member:	\$400

If paying by check:

AANN Member: (check payable to ABNN)	\$325
Non-member: (check payable to ABNN)	\$425

V. Refund of Application Fees

A candidate who has not scheduled their examination date and location with the testing company who wishes to cancel their examination application must contact the ABNN office **7 days prior to the exam eligibility end date**. Exam withdrawals **received** by the ABNN office at least 7 days prior to the exam eligibility end date will receive a refund of their application fee minus a **\$100** administrative fee. **Please note:** If a candidate has already scheduled their examination date and location with the testing company, the candidate will not be eligible for a refund. An applicant who does not complete the audit process will not receive a refund.

VI. Application Audits

ABNN randomly audits 5% of certification applications. If selected for audit, the candidate's supervisor submitted on the application will receive an email to verify their work experience. Candidates will also need to upload their RN licensure in the system. Other applications may be audited at the discretion of the ABNN Board. Failure to provide requested documentation for an audit will result in the denial of the candidate's application. No refunds will be given for a candidate that does not complete the audit.

VII. Examination Administration

ABNN contracts with PSI Services to provide examination services. PSI carefully adheres to industry standards for development of practice-related, criterion-referenced examinations to assess competency and is responsible for administering the CNRN exam and scoring and reporting examination results.

The CNRN exam is offered three times during the year in computer-based testing (CBT) format. Examinations are delivered by computer at approximately 300 PSI test centers located throughout the United States and internationally. For a current list of sites visit: <https://test-takers.psiexams.com/abnn>. Please note that you will be unable to register for a testing site until you have submitted and received confirmation of your completed online exam application by ABNN.

The CBT exam will be offered during the following windows:

- March 1–31
- July 1–31
- October 1–31

The examination is administered by appointment only. Appointment starting times may vary by location. Evening and Saturday appointments may be scheduled based on availability. Available dates will be indicated when scheduling your examination. Candidates are scheduled on a first-come, first-served basis. **Candidates should not wait until the last day of their exam window to try to schedule as they will NOT be able to schedule and sit in the same day.**

Examinations will not be offered on the following U.S. holidays:

- New Year's Day
- Martin Luther King Jr. Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day (and the following Friday)
- Christmas Eve
- Christmas Day

VIII. Requests for Testing Accommodations

PSI complies with the Americans with Disabilities Act and strives to ensure that no individual with a disability— as defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment—is deprived of the opportunity to take the examination solely by reason of that disability. PSI will provide reasonable accommodations for candidates with disabilities, except where it may fundamentally alter the examination, influence the examination results, or result in an undue burden. Candidates requesting special accommodations must complete the online PSI Accommodations form to schedule their examination once completing the online exam application: https://psi-cdexp.zendesk.com/hc/en-us/requests/new?ticket_form_id=360000991112

1. Wheelchair access is available at all established test centers. Candidates must advise PSI at the time of scheduling that wheelchair access is necessary.
2. Candidates with visual, sensory, physical or learning disabilities that would prevent them from taking the examination under standard conditions may make a request for special accommodations and arrangements which will be reviewed by PSI.

Verification of the disability and a statement of the specific type of assistance needed must be submitted online at least 45 calendar days prior to your desired examination date by completing PSI's online form: https://psi-cdexp.zendesk.com/hc/en-us/requests/new?ticket_form_id=360000991112. Attach the Documentation of Disability-Related Needs form (which must be completed by an appropriate licensed professional) with your online request. PSI will review the submitted forms and will contact you regarding the decision for accommodations.

Accommodations for Remote Proctoring will follow the same process as above. If the accommodation request would compromise the examination security, the candidate will be directed to an in-person testing location.

For Exam Accommodations questions/concerns, please call 1-800-367-1565 ext. 6750 Monday through Friday, 8 a.m. to 5 p.m. CST.

IX. Scheduling an Examination Appointment

After you have registered for the examination and received notification of your eligibility by email, you may schedule the examination by one of the following methods:

Schedule online: Schedule a testing appointment online at any time by using PSI's Online Application/Scheduling service at <https://test-takers.psiexams.com/abnn>. To use this service follow these steps: Go to <https://test-takers.psiexams.com/abnn> and select "Begin Scheduling". Follow the simple step-by-step instructions to create a record with PSI using your PSI ID # located in your ABNN Certification Center Exam Widget (begins with NS#####), choose your examination program, and register for the examination.

Please view the **Scheduling Step-by-Step instructions below** for detailed instructions on how to schedule your exam online.

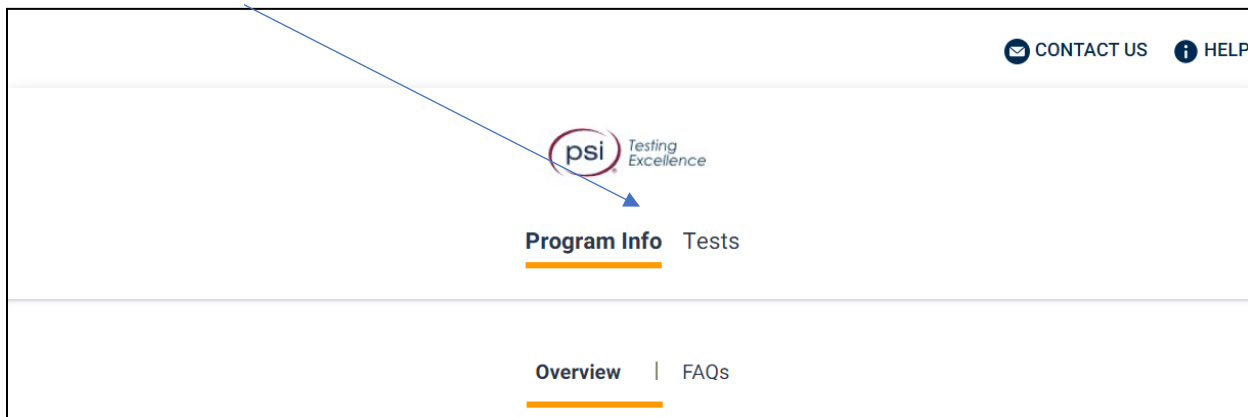

Schedule by email: Email PSI at ABNN.Support@psionline.com with your name, PSI ID# (located in your Certification Center Exam Widget beginning with NS#####), requested schedule dates and preferred testing site. PSI will contact you within 24-48 hours when scheduling via email.

Schedule by phone: Call PSI toll-free at 1-855-340-0087 to schedule an examination appointment from 7:00 a.m. to 9:00 p.m. (Central Time) Monday through Thursday, 7:00 a.m. to 7:00 p.m. on Fridays, and 8:30 a.m. to 5:00 p.m. on Saturdays.

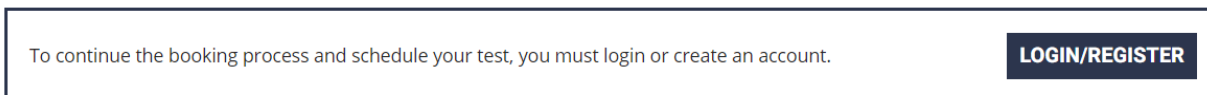

When you contact PSI to schedule an appointment, please be prepared to confirm a date and location for testing and to provide your name and candidate identification number (from PSI's email scheduling notice). All individuals are scheduled on a first-come, first-served basis.

HOW TO BOOK/SCHEDULE THE EXAM

1. You will receive an eligibility email from ABNN. Select the link imbedded in the email or select the following URL: <https://test-takers.psiexams.com/abnn>.
2. Select **TESTS** to create an account.

3. Select the Examination. You are ready to create an account. Select **LOGIN/REGISTER**.

4. You will be prompted to **CREATE AN ACCOUNT** with PSI.
 - **IMPORTANT:** You MUST use your PSI ID # located in your ABNN Certification Center Exam Widget (beginning with NS#####) when creating your account.
 - The first and last name must be the same as you provided on your ABNN application and match exactly with your current, valid, government-issued ID.

<input type="text" value="ID *"/>	
<input type="text" value="First Name *"/>	<input type="text" value="Last Name *"/>
<input type="text" value="Middle Name"/>	<input type="text" value="Generation"/>
<input type="text" value="Email *"/>	
<input type="text" value="Password *"/>	Your password must contain: <ul style="list-style-type: none"> • At least one capital letter A-Z • At least one lower case letter a-z • At least one number 0-9 • At least one special character !@#V\$%V^&V* • At least 8 and up to 32 characters
<input type="text" value="Confirm Password *"/>	

5. Select your test format: **Test Center** or **Remote Online Proctored**

Modality	
 Site Proctored <div style="background-color: #004a87; color: white; padding: 5px; display: inline-block; margin-top: 10px;">SELECTED</div>	 Atlas Remote Proctored <div style="background-color: #ccc; padding: 5px; display: inline-block; margin-top: 10px;">SELECT</div>

Scheduling at a Test Center *If Online Remote Proctored is selected, go to **STEP 9**.*

6. If **Test Center** is selected, enter the “**City or Postal Code**” and select **FIND**.

Search Test Center Location	
<input type="text" value="City, province, or postal code"/>	Radius <input type="text" value="5"/>

7. Select a date and time to book/schedule an appointment. **Do NOT wait until the last day of your exam window to try to schedule as the system will not allow that and you will miss your window.**

Choose a Date and Time

The screenshot shows a date selection interface. On the left, a calendar for October 2021 is displayed with the 8th selected. On the right, a panel titled "Time slots available for October 08, 2021" shows two available time slots: 08:00 AM and 01:30 PM.

8. You will receive a message confirming the Test Center, booked/scheduled date, and booked/scheduled time. Please review the scheduling before selecting **CONFIRM**. Once your scheduling is confirmed, select **DONE**.

The screenshot shows a booking confirmation message. It includes the text "Booking Confirmed!!" with a print icon and a link to "Print Confirmation". It also displays contact information: Email Address: asingla81@psionline.com, Home Phone: 111224444, and Office Phone: 2221112345.

Scheduling via Remote Proctor

9. If Online Remote Proctoring was selected, enter the "Country and Timezone" and select **NEXT**.

The screenshot shows a form for selecting a timezone. It has a dropdown menu for "Select Country" with "United States" selected, and a dropdown menu for "Timezone". There are "CANCEL" and "NEXT" buttons at the bottom right.

10. Select a date and time to book/schedule an appointment to take the exam.

Book Your Test:

 (UTC: -08:00) Pacific Time (America/Los_Angeles)

 Wednesday, October 06, 2021

 5:30 PM Pacific Time

Before taking your remote online proctored exam, please check system compatibility - click [HERE](#)

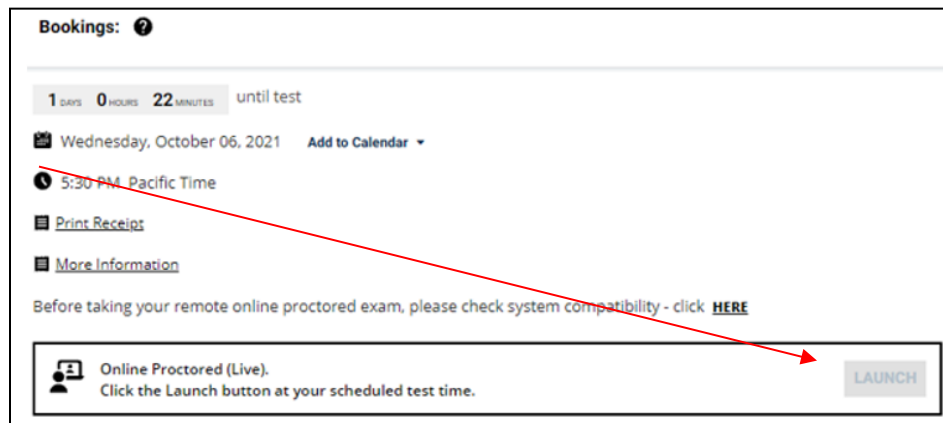

By continuing, you agree to The Company's [Conditions of Use And Privacy Notice](#).

CONFIRM

12. Your booking will now display in your account. You will be able to **LAUNCH** your test within 30 minutes of your booked exam time.

IMPORTANT: BE SURE TO CHECK THE COMPATIBILITY OF YOUR COMPUTER

to include Audio/Video Check, Webcam Check and System Check. Prior to testing, click **HERE** in your account.

By not starting your test within 15 minutes after your scheduled time, you forfeit your test fee or test eligibility. Fees and test eligibilities are non-refundable. If you have any questions regarding your compatibility check, or if you experience issues launching your exam, you may contact PSI's technical support team at (855) 340-0068.

X. Rescheduling an Examination Date

If you have already scheduled your date and time for the exam, you may reschedule your appointment at no charge to a date within your eligibility window by contacting PSI online at <https://test-takers.psiexams.com/abnn> or by calling 855-340-0068 **at least 2 business days prior to your scheduled appointment**. The following schedule applies:

If your examination is scheduled on...	You must call PSI by 3:00 p.m. Central time to reschedule the examination by the previous...
Monday	Wednesday
Tuesday	Thursday
Wednesday	Friday
Thursday	Monday
Friday/Saturday	Tuesday

XI. Exam Window Postponement

Candidates may not extend or postpone their exam eligibility window. If you do not complete the exam before your eligibility window expires, you will be required to submit a new application and pay all associated fees.

XII. Exam Window Cancellation

If you have applied to take the CNRN examination and have not scheduled the exam date and location, and you need to cancel the application, please contact ABNN at info@abnncertification.org.

Withdrawal requests received by the ABNN office **at least 7 days** prior to the exam eligibility end date will receive a refund of their application fee minus a \$100 administrative fee. Examination withdrawals received by the office fewer than 7 days prior to the exam eligibility end date will **receive no refund**.

Missed Appointments and Forfeitures

You will forfeit your examination registration and all fees paid to take the examination under the following circumstances:

- You do not complete the audit, if selected.
- You wish to reschedule an examination but fail to contact PSI at least 2 business days prior to the scheduled testing session.
- You do not sit during your exam eligibility period.
- You appear more than 15 minutes late for an examination.
- You fail to report for an examination appointment.
- Your ID does not match the name listed on your application.

A new, complete application and examination fee are required to reapply for examination.

XIII. Inclement Weather, Power Failure, or Emergency

In the event of inclement weather or unforeseen emergencies on the day of an examination, PSI will determine whether circumstances warrant the cancellation and subsequent rescheduling of an examination. The examination will usually not be rescheduled if the test center personnel are able to open the test center.

Visit the www.psonline.com/openings website prior to the examination to determine if PSI has been advised that any test centers are closed. Every attempt is made to administer the examination as scheduled; however, should an examination be canceled at a test center, all scheduled candidates will receive notification following the examination regarding rescheduling or reapplication procedures.

If power to a test center is temporarily interrupted during an administration, your examination will be restarted. The responses provided up to the point of interruption will be intact, but for security reasons, the questions will be scrambled.

XIV. Computer-Based Testing (CBT) Examination Procedures

Taking the Examination

Your examination will be given by computer at a PSI test center or via Live Remote Proctoring (LRP). LRP is a safe, secure, and convenient way to schedule and sit for your CNRN or SCRN examination from your home or other secure location using their own computer, rather than going to a testing center. The remote proctoring option means that a remote proctor is actively watching the candidate during the time of the test administration in order to safeguard the exam integrity and validity. This is similar to the role of a proctor during an in-person exam at a testing center. You do not need any computer experience or typing skills to take your examination. For in-person candidates, For LRP candidates, please see additional information and processes below.

In-person Candidates Exam Day Requirements/Process

On the day of your examination appointment, report to the test center 30 minutes before your scheduled testing time. Look for signs indicating PSI test center check-in. **If you arrive more than 15 minutes after the scheduled testing time, you will not be admitted.**

Identification

To gain admission to the test center, you must present one form of identification that contains a current photograph. The form of identification must be valid and include your current name and signature. You will also be required to sign a roster for verification of identity. You **MUST** bring one of the following*:

- Driver's license with photograph
- State identification card with photograph
- Passport
- Military identification card with photograph.

**No forms of temporary identification will be accepted.*

If your name on your exam registration is different than it appears on your identification, you must bring proof of your name change (e.g., marriage license, divorce decree, or court order).

Personal Belongings

No personal items, valuables, or weapons should be brought to the test center. Only wallets and keys are permitted. Coats must be left outside the testing room. You will be provided a soft locker to store your wallet and/or keys with you in the testing room. You will not have access to these items until after the examination is completed. Please note the following items will not be allowed in the testing room except securely locked in the soft locker:

- watches
- hats

Once you have placed everything into the soft locker, you will be asked to pull out your pockets to ensure they are empty as well as undergo a metal detection wand inspection as part of the security check. This is to ensure the security and integrity of your testing experience. If all personal items will not fit in the soft locker you will not be able to test. The site will not store any personal belongings. If any personal items are observed in the testing room after the examination is started, the administration will be forfeited.

Remote Proctoring Exam Day Requirements/Process

On the day of your examination appointment, please log-in 15 minutes before your scheduled testing time. **If you arrive more than 15 minutes after the scheduled testing time, you will not be admitted.**

Technical Requirements – For the most up-to-date requirements and troubleshooting tips, please review [PSI's website](#).

- Hardware compatibility – Laptop or desktop computer (PC, MAC, Ubuntu) only (**iPad, Chromebook, mobile devices, and other tablets will NOT work**).
 - Webcam, microphone, and speakers are required
 - Dual screens are NOT allowed
- Operating System – Windows 10 & 11 (64-bit only), MacOS Sequoia (15.x), Sonoma (14.x), Ventura (13.x), Ubuntu 22.04 & 24.04
- Internet –
 - Stable Broadband (DSL, cable, fiber, optic, or LAN/WAN) minimum 750 kbps, 3Mbps or higher is recommended.
[Check your connection.](#)

- A wired connection is preferred over wireless (WiFi)
- Browser – Google Chrome 58.0 or higher. This is the only browser supported.
- System Check – All LRP candidate MUST do a [system check](#) prior to their scheduled exam.
- Camera – Mobile devices are NOT allowed for the exam. Your camera must be capable of a 360-degree scan of the test room.
- Other Requirements:
 - Flash player - (for PC users)
 - Ability to download and install a small program: PSI's secure web browser (provided the day of the exam). Please note: **In work or home environments with firewalls, you must have administrative access to disable the firewall. This must be ensured prior to taking an exam on a work computer.** The compatibility test does not test for administrative rights and firewalls. **We strongly recommend not using a work computer to take the exam via LRP as the firewall will likely be an issue.**
 - Candidates must be able to use the computer in a private room without interruption.

If you experience problems during your exams, any of the following may be required:

- another room scan
- showing your id
- contacting PSI technical and/or customer support at 855-340-0068.
- PSI may need to access your computer remotely to help resolve any technical issues.

Candidate Check-In Process/Room Scan

- Identification Process
 - One form of current ID is required and must be presented to the proctor before the exam starts. Identification presented must be current or unexpired and contain a signature and a photo. The first and last name must match the candidate's registration name exactly. Candidates will not be allowed to test without proper ID. Acceptable forms of ID are: Driver's License, State/Providence ID card; U.S. Visa; or international passport. Military IDs are not accepted for identification for online remote proctored exams.
 - You may choose to upload your ID at the time of scheduling your exam through a secure mobile upload or the proctor will ask you to show your photo ID on the day of your exam by holding it up to the webcam to verify your identity. If you choose to do the mobile upload, please follow the step-by-step instructions within the PSI Scheduling Platform.
 - The proctor will ask you to verify the name of the exam you are taking and ask you to agree to the PSI and ABNN Examination Rules regarding exam confidentiality.
- Systems Check
 - The proctor will instruct you to Download the Secure Browser (if not already done).
 - The proctor will check to make sure your webcam and microphone are working properly, and that screen sharing has been activated. You will be asked to share your screen for all connected equipment.
- 360-Degree Room Scan
 - The proctor will ask you to slowly move the webcam around the room to verify that you are alone and that your desk is clear of restricted items. A proctor will continuously monitor both the test taker and the testing environment.
 - See Security and Examination Restrictions below for further information.
- Photograph
 - You must agree to have your photograph taken as part of the admission procedure for both in-person and remote proctored tests. If you do not agree, you will not be admitted for the exam.

Assessment Center/Remote Proctoring (LRP) Security

PSI administration and security standards are designed to ensure all candidates (regardless of testing modality) are provided the same opportunity to demonstrate their abilities. The assessment center is continuously monitored by audio and video surveillance equipment for security purposes.

The following security procedures apply during the examination for both in-person and remote proctoring:

- Examinations are proprietary. No cameras, notes, tape recorders, pagers, or cellular/smart phones are allowed in the testing room. Possession of a cellular/smart phone or other electronic devices is strictly prohibited and will result in dismissal from the examination.
- Calculators are not necessary as all calculations found on the examination can be performed without the aid of a calculator. However, in-person testing candidates are permitted to bring a personal calculator and use it during the examination. The only type of calculator permitted is a simple battery-powered pocket calculator that does not have an alphanumeric keypad and does not have the capability to print or to store or retrieve data. You MUST present/show your calculator to the examination

proctor for inspection PRIOR to the start of the examination. Using a calculator during the examination that has NOT been inspected may result in dismissal from the examination. **LRP candidates may use the computer calculator as long as the proctor is notified.**

- No guests, visitors, or family members are allowed in the testing room or reception areas.
- For in-person exam takers, candidates will be subject to a metal detection/wanding scan upon entering the examination room.

Examination Restrictions

- Pencils will be provided during check-in. LRP candidates may use a pencil that has been shown during the room scan prior to the exam.
- In-person candidates will be provided with one piece of scratch paper at a time to use during the examination, unless noted on the sign-in roster for a particular candidate. You must return the scratch paper to the supervisor at the completion of testing or you will not receive your score report. LRP candidates may use one piece of blank scratch paper that has been reviewed during the room scan prior to the exam. They must shred the scratch paper at the completion of testing or they will not receive their score report.
- No documents or notes of any kind may be removed from the test center.
- No questions concerning the content of the examination may be asked during the examination.
- Eating, drinking, or smoking will not be permitted in the test center and/or examination room.
- **You may take up to three (3) breaks** whenever you wish, but you will not be allowed additional time to make up for time lost during breaks. Each break must be **10 minutes or less**, otherwise, it will be marked as a violation and your exam may be shut down.

Misconduct

If you engage in any of the following conduct during the examination you may be dismissed, your scores will not be reported, and examination fees will not be refunded. Example of misconduct are when you:

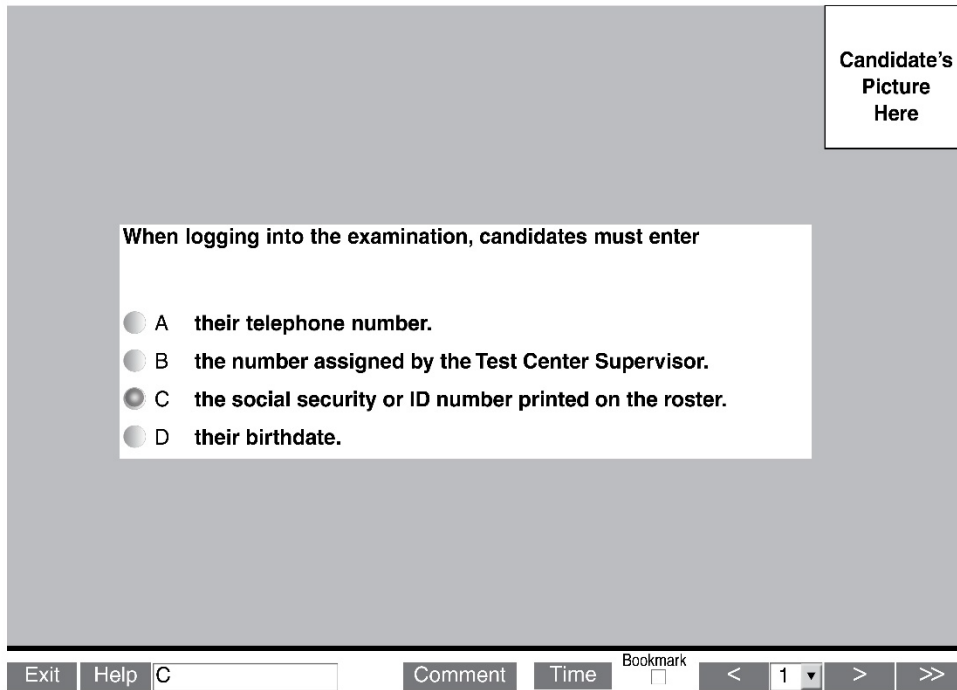

- create a disturbance, are abusive, or otherwise uncooperative
- display or use electronic communications equipment such as pagers, cellular/smart phones, extra monitor
- talk or participate in conversation with other examination candidates or people outside of exam room
- give or receive help or are suspected of doing so
- leave the test center during the administration
- attempt to record examination questions or make notes
- attempt to take the examination for someone else
- are observed with personal belongings
- are observed with notes, books, or other aids without it being noted on the roster.

Practice examination

Prior to attempting the timed examination, you will be given the opportunity to practice taking an examination on computer. The time you use for this practice examination is not counted as part of your examination time. When you are comfortable with the computer testing process, you may quit the practice session and begin the timed examination.

Timed examination

Following the practice examination, you will begin the timed examination. Before beginning, instructions for taking the examination are provided on-screen. The examination contains 220 questions. Four hours are allotted to complete the examination. The following is a sample of what the computer screen will look like when candidates are attempting the examination:

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time limit. You may click on the “Time” button in the lower right portion of the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The time feature may also be turned off during the examination.

Only one examination question is presented at a time. The question number appears in the lower right portion of the screen. The entire examination question appears onscreen (i.e., stem and four options labeled: A, B, C, and D). **Indicate your choice by either entering the letter of the option you think is correct (A, B, C, or D) or clicking on the option using the mouse.** To change your answer, enter a different option by typing A, B, C, or D or clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any questions, click the backward arrow (<) or use the left arrow key to move backward through the examination.

A question may be left unanswered for return later in the examination session. Questions may also be bookmarked for later review by clicking in the blank square to the right of the Time button. Click on the double arrows (>>) to advance to the next unanswered or bookmarked question on the examination. To identify all unanswered and bookmarked questions, repeatedly click on the double arrows (>>). When the examination is completed, the number of questions answered is reported. If not all questions have been answered and there is time remaining, return to the examination and answer those questions. Be sure to answer each question before ending the examination. **There is no penalty for guessing.**

Online comments may be entered for any question by clicking on the Comment button to the left of the Time button. This opens a dialog box where comments may be entered. Comments will be reviewed, but individual responses will not be provided.

XV. Notification of Examination Results

1. All candidates will be notified of their pass/fail status with an explanation of their scaled score and the passing scaled score at the testing site or via email for LRP. Those who pass will be issued their CNRN Digital Badge from admin@credly.com within 4-6 weeks of their examination date. Learn more about Digital Badges and how to access your downloadable certificate on the [ABNN website](#).
2. It is the candidate’s responsibility to notify the ABNN office of any errors or changes in contact information prior to the examination. Candidates are prompted to verify name and address information when scheduling their exam online.

3. In computer-delivered testing, the computer accepts responses from a keyboard or mouse in digitized form. As a result, computer-administered testing eliminates problems that may have previously arisen with scanning paper-and-pencil answer sheets, since all responses are recorded by candidates during their examination. However, verification of examination scores from electronic responses can be requested if **received by** PSI in writing within 90 days of the exam date. The verification results are sent to the candidate within six (6) weeks. The candidate must assume the cost of rescoring.

XVI. Confidentiality of Examination Results

Examination results are released only to the candidate at the close of the exam. In response to specific inquiries, and with permission of the individual CNRN, verification of current CNRN status will be provided. Group data without individual identifying information may be used for research and study purposes, and may be released to other groups with a specific interest in nursing certification.

XVII. Retaking the Examination

Candidates who do not achieve a passing score may reapply for subsequent examinations. Candidates are eligible to test one time per examination window, but may not take the test more than three times in 12 months. Repeat candidates must submit a new application and full examination fee.

XVIII. Duration of Certification

CNRN certification is effective for a period of five (5) years. The actual expiration date of a CNRN certificate is December 31st of the 5th year after certification (i.e., certification of CNRNs certified in March, July, or October 2025 expires on December 31, 2030). To renew certification prior to the expiration date, the certificant may either retake the certification exam or submit documentation of the required continuing education contact hours and work hours in neuroscience nursing during the 5th year of the certification cycle. Apply to recertify by the October 1st early bird deadline to save \$85. Continuing education credits begin to be eligible toward recertification effective immediately following the month of successful examination. ABNN will provide reminder information in the middle of the year that the candidate is due to recertify. However, it is ultimately the responsibility of the CNRN to initiate the recertification process. Applications for recertification will not be accepted prior to the 5th year of the certification cycle with an early bird application deadline of October 1st.

XIX. The CNRN Credential

Each passing candidate will receive a certificate indicating attainment of certification. Successful completion of the examination entitles the candidate to use the credential CNRN. Please note, however, that the CNRN does not replace use of the designation, RN.

XX. Revocation of Certification

Causes for revocation of certification include:

- The CNRN did not possess the required qualification and requirements for the examination, whether or not such deficiency was known to ABNN prior to the examination or at the time of issuance of the certificate;
- The CNRN made a material misstatement or withheld information on the application or in any representation to ABNN, whether intentional or unintentional;
- The CNRN engaged in irregular practices in connection with an examination, whether or not such practices had an effect on the performance of the CNRN on an examination;
- There has been a limitation or termination of any right of the CNRN associated with the practice of neuroscience nursing in any state, province or country, including the imposition of any requirement of surveillance, supervision or review by reason of violation of a statute or governmental regulation, disciplinary action by any nursing licensing authority, entry into a consent order, or voluntary surrender of license.

No certification shall be revoked unless the CNRN concerned is notified of the intent of ABNN and has an opportunity for a hearing before a select committee of ABNN. Such notification shall be sent by certified mail no less than 30 days prior to the hearing.

XXI. Irregularities in Testing

In addition to Revocation of Certification, applicants should also understand that ABNN may or may not require a candidate to retake the examination, or a portion of the examination, if presented with sufficient evidence that the security of the examination has been compromised, notwithstanding the absence of any evidence of a candidate's personal involvement in such activities.

XXII. Denial of Application and Appeal

Application to take the examination will be denied if the applicant is deemed ineligible for certification, or if documentation does not meet the requirements listed. Falsification of the application, including failure to provide material information, is grounds for denial of the application or for denial of certification. In such cases, the applicant will be notified in writing of the specific reason. There can be no appeal for failure to achieve a passing score on the examination, lack of current RN license, or failure to apply by the deadline. Any applicant whose application for certification is denied approval will automatically be sent information about how to appeal the decision, including steps in the appeal process and additional information required. Applicants denied application approval will receive a refund of the application fee, minus a \$100 administrative fee. *Note: There is no refund if an applicant fails to complete an audit.*

XXIII. Copyrighted Examination Questions

All examination questions are the copyrighted property of ABNN. It is forbidden under federal copyright law to copy, reproduce, record, distribute or display these examination questions by any means, in whole or in part. Doing so may subject the candidate to severe civil and criminal penalties.

The Examination

The CNRN examination is a generalist exam, and is not intended to emphasize any particular level of care nor any particular developmental level. The exam consists of 220 multiple-choice items with a total testing time of **four (4) hours**. Twenty (20) out of the 220 items are pretest items, which are not scored. (Note: the examination may include additional items that are being tested for future use.) Three levels of knowledge are tested: knowledge; interpretation; and problem solving and evaluation. The following lists include some of the actions associated with each of the knowledge levels.

Knowledge	Interpretation	Problem Solving and Evaluation
Define	Interpret	Compose
Repeat	Apply	Plan
Record	Use	Propose
List	Distinguish	Formulate
Describe	Analyze	Judge
Recognize	Compare	Rate
Explain	Solve	Value
Report	Inspect	Select
Review	Examine	Organize
Relate	Categorize	Evaluate

Sample Examination Questions*

- Following a cerebral vascular accident (CVA) involving the middle cerebral artery, a patient developed homonymous hemianopia. Which of the following interventions is MOST suitable as part of the rehabilitation plan?
 - Gather assessment data for a likely ophthalmology consult
 - Patch the affected eye
 - Discourage ambulation
 - Teach visual scanning techniques
- After a head injury, a patient has persistent recent memory loss. Which of the following strategies would be MOST beneficial as the patient reintegrates into the community?
 - Keep a calendar of daily activities
 - Memorize the next day's schedule every night
 - Hire a personal care assistant
 - Ask others for daily instructions
- Which of the following is the MOST suitable intervention for a patient with cranial nerve involvement due to Guillain-Barré Syndrome (GBS)?
 - Sensory checks below the level of the lesion
 - Establishing communication patterns
 - Use of neuromuscular blocking agents
 - Initiation of continuous positive airway pressure (CPAP) for respiratory management
- Of the following, which is MOST appropriate as an interdisciplinary team goal for the sensory stimulation program for a comatose patient?
 - Design a patient-centered program
 - Plan a comprehensive bowel and bladder retraining program
 - Select nationally recognized stimulation techniques
 - Develop a treatment schedule consistent with schedules of each team member

Answers: 1. d; 2. a; 3. b; 4. a

**These items are intended only as samples of the style of questions you should expect. They are not representative of the numbers of any category of question that will be included on the test.*

XXIV. Commonly Asked Questions about the CNRN Examination

How is the passing score determined?

The passing score is established by a systematic criterion-referenced procedure that employs the judgment of neuroscience nursing experts from around the country as well as the assistance of professional psychometricians from PSI. With this process, the raw score (i.e., number of correct answers) required to pass an examination form is established; that score relates to the number of correct answers that a minimally competent (borderline expert) candidate would be expected to provide. The final determination of the passing score is made by the ABNN Board of Trustees.

What is a scaled score?

Scaled scores are used to provide a consistent scale of measurement, so that from one form of the test to the next, the same scaled score represents the same level of knowledge. To calculate a scaled score, the raw score required to pass is first set equal to 200. An analogous situation is with temperature: 0 degree and 32 degrees both represent freezing on different temperature scales. Raw scores below the passing point are converted in linear fashion to scaled scores below 200; those above the passing point are similarly converted to scaled scores above 200. Although much care is taken to ensure that all forms of the examination are similar, new forms may vary somewhat in level of difficulty from earlier ones. A raw score on one may not be comparable, therefore, to a raw score on a different version. To prevent candidates who took a less difficult form of the examination from having an unwarranted advantage over those who took a slightly more difficult form, raw scores are converted to scaled scores that represent comparable levels of achievement.

The test consists of 220 questions; 200 are used to compute candidates' scores and 20 are unscored and being pretested for possible use on future test forms.

What is the best way to study for the exam?

There is no best way to study. Based on a survey of CNRN candidates, the following are summary results of how successful candidates prepared for the exam (N= 90 respondents):

Respondents began studying an average of 4 months prior to exam (range 1 month to 12 months), and the majority of respondents spent at least 10 hours per week studying for the exam (see table below).

Hours Spent Studying Per Week		
Hours Per Week	Total Responses	Percentage of Responses
60	1	1%
40	5	6%
20	21	23%
10	35	39%
5	16	18%
Less than 5	12	13%

Examination Preparation Methods:

Candidates utilized a variety of means to prepare for the exam. Many used multiple methods to ensure breadth in their preparation. The table below lists additional specifics of the types of preparation used.

Study Methods Used in Exam Preparation		
Study Method	Total Responses	Percentage of Responses
Review Course	51	57%
Group Study	7	8%
Independent Study	77	86%
On-line Study Course	5	6%

Textbooks/Online Materials Used:

A wide variety of texts were employed to prepare for the CNRN exam. A few example preparation products are below:

- *AANN Core Curriculum for Neuroscience Nursing*
- *AANN Self-Paced CNRN Review Course*
- *AANN Live CNRN Review Webinar*
- *AANN CNRN Self-Assessment Examination*
- *The Clinical Practice of Neurological and Neurosurgical Nursing* by Joanne V. Hickey
- *Neuroscience Nursing: A Spectrum of Care* by Ellen Barker

Journals Used:

Candidates also utilized many journals and periodicals to enhance their preparation. The three most commonly utilized were (in order of popularity based on the survey):

- *The Journal of Neuroscience Nursing*
- *The American Journal of Nursing*
- *Critical Care Nursing*

In addition, the American Association of Neuroscience Nurses (AANN) has CNRN preparation material available for purchase in their Online Store. Please visit www.AANN.org to purchase these programs. *Note: ABNN does not endorse any educational product or program.*

XXV. Scope of the Examination

Attainment of CNRN certification includes successful completion of a general neuroscience nursing exam that is intended to determine if the candidate possesses the basic knowledge needed to care for both neurosurgical and neurological patient populations competently. Just as neuroscience nursing includes caring for patients across the lifespan and in a variety of settings, the exam includes items about patients at various ages and developmental stages and in different levels of care. While questions may vary in their level of difficulty, the exam tests the candidate's knowledge of core neuroscience nursing principles.

XXVI. Examination Construction

ABNN conducted a role delineation/job analysis survey during 1996, 1997, 2001, 2005, 2009, 2014, and 2019. The revised content outline from the 2019 job analysis survey was implemented for the July 2020 exam window. The survey examined neuroscience health problems, human responses in neuroscience disorders and specific nursing interventions used to describe Neuroscience Nursing practice. Based on the responses, the CNRN Job Analysis Task Force defined a framework for construction of the examination. Following are a detailed content outline of the exam and by categories of disorders. Although not all content or human responses are part of the CNRN Outline, the core of Neuroscience Nursing knowledge required for specialty practice is clearly represented.

XXVII. ABNN CNRN EXAM

(Based on 2024 Job Analysis Study)

Detailed Content Outline

I. Anatomy, Physiology, Pathophysiology, and Diagnosis (91 items)

A. Trauma

1. Traumatic Brain Injury
2. Hematoma/Hemorrhage
3. Spinal Cord Injury
4. Skull and Spinal Fracture

B. Cerebrovascular

1. Ischemic Stroke
2. Hemorrhagic Stroke
3. Transient Ischemic Attack
4. Cerebral Venous Sinus Thrombosis
5. Vascular Anomalies
6. Anoxic Injury
7. Stroke Mimics

C. Neuro-oncology

1. Brain Tumors
2. Spinal Cord Tumors
3. Neuro-endocrine Disorders

D. Infection and Immune Complications

1. Brain and Spinal Abscesses
2. Meningitis
3. Encephalitis
4. Bell's Palsy/Cranial Nerve Palsy
5. Neuromuscular Disorders (e.g., Myasthenia Gravis, Guillain Barre)
6. Encephalopathies (e.g., toxic, metabolic, PRES)
7. Neurodegenerative Disorders (e.g., Multiple Sclerosis, Demyelinating Polyneuropathy, Amyotrophic Lateral Sclerosis, Prion Disease)

E. Neurodevelopmental Conditions

1. Cranial/Cerebral Defects (e.g., craniosynostosis, plagiocephaly, microcephaly, anencephaly)
2. Chiari Malformation
3. Hydrocephalus (e.g., congenital)
4. Congenital Brain and Spinal Cord Structural Anomalies

F. Neurological Disorders

1. Partial, Generalized, Status Epilepticus, Non-epileptic Seizures, Provoked Seizures
2. Headaches/Migraines
3. Hydrocephalus (e.g., communicating, non-communicating, normal pressure)
4. Pseudotumor Cerebri/Idiopathic Intracranial Hypertension
5. Dementia
6. Movement Disorders
7. Degenerative Spine Disease
8. Peripheral Nerve Injury and Neuropathy

II. Patient Management (76 items)

- A. Physiological Interventions
 - 1. Activity and Self-care
 - 2. Bowel and Bladder Management
 - 3. Nutrition
 - 4. Metabolic Management
 - 5. Pharmacological Management
 - 6. Neurological Assessment and Management
 - 7. Surgical/Procedural Treatment and Management
 - 8. Respiratory Monitoring and Airway Management
 - 9. Thermoregulation
 - 10. Cardiovascular Management
- B. Behavioral Interventions
 - 1. Patient Behavioral Factors and Management
 - 2. Psychosocial Considerations (e.g., Depression, Anxiety)
 - 3. Chemical Dependency
 - 4. Pain
 - 5. Coping and Self-Care Mechanisms and Resources
- C. Safety Interventions
 - 1. Neurological Status and Decline
 - 2. Delirium
 - 3. Abuse Recognition, Protection, and Support
 - 4. Environmental Safety Management (e.g., fall prevention, suicidal precaution, seizure precautions)
 - 5. Neuro-specific Infection Prevention
 - 6. Physical and Chemical Restraint

III. Multidisciplinary Care (33 items)

- A. Quality of Life
 - 1. Comfort Promotion
 - 2. Support Systems
 - 3. Culture and Socioeconomic Considerations (including Social Determinants of Health)
 - 4. Rehabilitation and Continuation of Care
 - 5. Palliative Care
 - 6. Hospice/End of Life
 - 7. Organ Donation
- B. Health Care Management
 - 1. Education, Support, and Resources for Patient and Caregivers
 - 2. Multidisciplinary Collaboration, Quality Improvement, and Outcome Evaluation
 - 3. Scope of Practice, Professional Competence, and Delegation
 - 4. Ethics, Evidence-based Standards, and Regulations

Secondary Classifications

1. Serve as a neuroscience resource to other nurses, disciplines, patients and caregivers.
2. Assess patient condition (i.e., injury, trauma, diagnosis) to identify appropriate type of care.
3. Collect and interpret patient medical history (including neurologic conditions).
4. Assess and identify patient with substance use disorders (e.g., alcohol/drug withdrawal, smoking cessation) to collaborate for treatment and resources.
5. Assess, monitor, intervene, and evaluate respiratory status and airway management.
6. Assess, monitor, intervene, and evaluate cardiovascular conditions and complications.
7. Select and perform the appropriate neurological assessments (including spinal assessment) given the current patient status.
8. Correlate neurologic assessment findings to appropriate interventions.
9. Anticipate changes/needs in care and treatment for the neurological patient.
10. Provide diagnosis-specific care and treatment for the neurological patient.
11. Assess for signs and symptoms of cerebral edema and provide appropriate nursing interventions.
12. Identify signs and symptoms of bleeding/hemorrhage and provide appropriate interventions.
13. Assess, monitor, intervene, and evaluate for optimal metabolic and physiologic status.
14. Assess, monitor, intervene, and evaluate thermoregulation.
15. Assess, monitor, and manage Cerebral Spinal Fluid (CSF) drainage devices.
16. Assess, monitor, and manage Intracranial Pressure (ICP).
17. Optimize cerebral and spinal cord perfusion.
18. Implement spinal precautions for those with spinal injuries.
19. Perform and provide guidance on neurological positioning, stabilization, immobilization, and movement.
20. Educate on and implement safety precautions for neuro-specific devices and drains.
21. Assess and manage seizure activity and provide appropriate interventions and precautions.
22. Educate on, calculate, quantify, administer, monitor, communicate, and document pharmacological interventions.
23. Administer, monitor, communicate, document, and educate on pain management including non-pharmacological interventions.
24. Provide pharmacologic and/or non-pharmacologic venous thromboembolism (VTE) prophylaxis.
25. Assess for fall risk and implement precautions.
26. Educate and intervene on environmental management and modifications.
27. Perform dysphagia and aspiration risk screening and refer to speech pathology as appropriate.
28. Assess, monitor, and collaborate to optimize patient nutritional status.
29. Manage nausea, vomiting, and bowel/bladder.
30. Assess and monitor for infection and implement infection prevention strategies.
31. Provide routine skin care, implement preventive measures, and educate on wound healing.
32. Provide education, identify complications, and implement safe practices for neuroscience procedures/surgery and post care.
33. Identify, manage, and support rehabilitation needs and goals (e.g., spasticity, cognition, psychosocial, dysphagia).
34. Provide nursing interventions to address activities of daily living (ADLs) (e.g., early mobilization, range of motion, elimination).
35. Promote sleep hygiene.
36. Assess for and manage delirium.
37. Provide education and guidance on physical/chemical restraints while prioritizing least restrictive modalities.
38. Provide a therapeutic, patient-centered environment to promote healing and accommodate patient deficits and/or needs.
39. Assess mental/emotional health of patient and identify any changes to provide holistic care and/or resources.
40. Coordinate holistic care using a multidisciplinary approach.
41. Provide culturally sensitive care to patient and caregivers.
42. Assess barriers and social determinants of health as it impacts care outcomes.
43. Provide patient-specific health education (e.g., disease process, procedures, treatment, risk factors, discharge plan) to patient and caregivers.
44. Engage patient/caregiver in care planning and/or goal setting.

45. Evaluate coping mechanisms and provide resources for patient/caregivers.
46. Provide education on primary, secondary, and tertiary prevention strategies and the importance of provider follow-up.
47. Provide safe transition of care (e.g., bedside handoff, interfacility, temporary transfer).
48. Support organ procurement team and optimize care for organ donation when applicable.
49. Provide ethical end of life considerations and care according to patient/family wishes.
50. Participate in evidence-based neuroscience quality improvement, research, education, and evaluation of outcomes.

REQUEST FOR SPECIAL EXAMINATION ACCOMMODATIONS

If you have a disability covered by the Americans with Disabilities Act, please complete this form online and provide the Documentation of Disability-Related Needs on the next page so your examination accommodations can be processed efficiently. The information you provide and any documentation regarding your disability and your need for examination accommodations will be treated with strict confidentiality.

Candidate Information

Candidate ID Number _____

Name (Last, First, Middle Initial, Former Name) _____

Mailing Address _____

City _____ State _____ Zip/Postal Code _____

Daytime Telephone Number _____

Special Accommodations

I request special accommodations for the _____ examination.

Please provide (check all that apply):

_____ Reader

_____ Reduced distraction environment

_____ Extended examination time (time and a half)

_____ Other special accommodations are needed (please specify below)

Comments: _____

PLEASE READ AND SIGN: I give my permission for my diagnosing professional to discuss with PSI staff my records and history as they related to the requested accommodation.

Signature _____ Date _____

Submit this information along with documentation from a licensed professional at: https://psi-cdexp.zendesk.com/hc/en-us/requests/new?ticket_form_id=360000991112.

If you have questions, call Candidate Services at 1-800-367-1565 Ext 6750.

DOCUMENTATION OF DISABILITY-RELATED NEEDS

Please have this section completed by an appropriate professional (education professional, physician, psychologist, psychiatrist) to ensure that PSI is able to provide the required examination accommodations.

Professional Documentation

I have known _____ since _____ / _____ / _____ in my capacity as a

Candidate Name

Date

Professional Title

The candidate discussed with me the nature of the examination to be administered. It is my opinion that, because of this candidate's disability described below, he or she should be accommodated by providing the special arrangements listed on the Request for Special Examination Accommodations form.

Description of Disability:

Signed _____ Title _____

Printed Name _____

Address _____

Telephone Number _____

Date _____ License Number (if applicable) _____

Submit this form with your online request at: https://psi-cdexp.zendesk.com/hc/en-us/requests/new?ticket_form_id=360000991112.

If you have questions, call Candidate Services at 1-800-367-1565 Ext 6750.

REQUEST FOR DUPLICATE CNRN EXAMINATION SCORE REPORT

Directions: You may use this form to ask PSI, the testing agency, to send you a duplicate copy of your score report. This request must be postmarked no later than one year after the examination administration. Proper fees and information must be included with the request. Please print or type all information in the form below. Be sure to provide all information and include the correct fee, or the request will be returned.

Fees: \$25 U.S. Dollars per copy. Please enclose a check or money order payable in U.S. Dollars to PSI Services Inc. Do not send cash. Write your candidate identification number on the face of your payment.

Mail to: PSI

CNRN Examination
18000 W. 105th Street
Olathe, KS 66061-7543, USA

Amount enclosed: \$ _____

Examination Date: _____

Print your current name and address:

Name _____ Candidate ID _____
Street _____ City _____
State/Prov. _____ Zip/Postal Code _____ Country _____
Daytime Telephone (_____) _____ Fax (_____) _____
