American Board of Neuroscience Nursing Certification Examinations

The American Board of Neuroscience Nursing (ABNN) is the independent, not-for-profit corporation established to design, implement and evaluate a certification program for professional nurses involved in the specialty practice of Neuroscience Nursing and its subspecialties. ABNN is solely responsible for the development, administration and evaluation of the certification programs. Neuroscience Nursing is the diagnosis and treatment of actual or potential patient and family responses to nervous system function and dysfunction across the healthcare continuum. The ABNN advances neuroscience nurses' practice and contributions to neurological health through certification of registered nurses.

Certification in Stroke Nursing is the formal recognition of the attainment and demonstration of a unique body of knowledge necessary for the practice of Stroke Nursing. In awarding the Stroke Certified Registered Nurse (SCRN) credential, ABNN recognizes nurses who demonstrate the attainment of this knowledge through successful completion of the certification examination or renewal/recertification through the accumulation of continuing education credits consistent with established policies. The SCRN certification program was developed in 2013 to formally recognize professional achievement and to promote excellence in Stroke Nursing.

I. ABNN Purposes

- Encourage the study of Neuroscience Nursing and its subspecialties
- Promote and advance the practice of Neuroscience Nursing through specialty certifications
- Determine minimum requirements for individuals who seek certification in Neuroscience Nursing and its subspecialties
- Conduct an examination for certification of qualified candidates
- Provide a mechanism for recertification in Neuroscience Nursing and its subspecialties

II. SCRN Eligibility Requirements

1. The candidate must have current, unrestricted licensure as a Registered Nurse in the United States, Canada or in any of the U.S. Territories that grant licensure utilizing the U.S. State Board Test Pool Exam or National Council for Licensure Exam. Candidates from other countries will be considered if they meet a comparable licensure requirement and can read and understand the English Language. **All candidates for the SCRN exam will be subject to an audit to validate their current licensure.**
2. The candidate must be a professional nurse engaged in clinical practice or as a consultant, researcher, administrator or educator who has had one (1) year full-time (2,080 hours) of direct or indirect stroke nursing practice as a registered nurse within the three (3) years immediately preceding the time of application.
 - a. Direct Stroke Nursing practice is defined as involvement in the nursing process in a clinical setting where the nursing actions and judgments are focused on a particular individual, family or group of individuals where there is continuing professional responsibility and accountability for the outcomes of these actions.
 - b. Indirect Stroke Nursing practice is defined as involvement that includes time spent in clinical supervision of students and/or staff, research or consultation.
3. The candidate must complete the online SCRN certification application and submit it with the appropriate fee, all of which must be received by the ABNN Office prior to the application deadline.
4. The ABNN does not discriminate against candidates for certification on the basis of age, race, religion, sex, national origin, marital status, sexual orientation, disability, or gender identity.

If you have any questions regarding eligibility, please email info@abnncertification.org

III. Application Deadlines

Applications for each exam administration and the applicable fee **must be submitted** online at www.abnncertification.org by no later than 5:00 p.m. (Central time) by the deadlines listed below:

Application Deadline	Exam Window Begin Date	Exam Window End Date
January 9, 2020	February 1, 2020	February 29, 2020
April 9, 2020	May 1, 2020	May 31, 2020
August 6, 2020	September 1, 2020	September 30, 2020

Candidates are encouraged to submit the application and fee online well in advance of the deadline to allow time to supply any additional required information noted during the application review process. ABNN reserves the right to request additional documentation to verify experience eligibility. Deficiencies cannot be corrected after the deadline. If paying by check, complete the application online, hit "Pay via Check" and mail the check including all of the information below:

Payable to: ABNN
 Address: PO Box 3781 Oak Brook, IL 60522
 Amount: (see Fees section below)
 Applicant Name:
 Reference Number: (listed on application)

Faxed applications will not be accepted under any circumstances. Candidates should keep a copy of the application for their records. If you need assistance completing the forms, or have questions about the status of your application, contact ABNN toll-free at 888/557-2266.

IV. Examination Application Fees

If paying by credit card:

AANN Member:	\$300
Non-member:	\$400

If paying by check:

AANN Member: (check payable to ABNN)	\$325
Non-member: (check payable to ABNN)	\$425

V. Refund of Application Fees

A candidate who has not scheduled their examination date and location with the testing company who wishes to cancel their examination application must contact the ABNN office **7 days prior to the exam eligibility end date**. Exam withdrawals **received** by the ABNN office at least 7 days prior to the exam eligibility end date will receive a refund of their application fee minus a **\$100** administrative fee. **Please note:** If a candidate has already scheduled their examination date and location with the testing company, the candidate will not be eligible for a refund. An applicant who does not complete the audit process will not receive a refund.

VI. Application Audits

ABNN randomly audits 5% of certification applications. If selected for audit, the candidate's supervisor submitted on the application will receive an email to verify their work experience. Candidates will also need to upload their RN licensure in the system. Other applications may be audited at the discretion of the ABNN Board. Failure to provide requested documentation for an audit will result in the denial of the candidate's application. No refunds will be given for a candidate that does not complete the audit.

VII. Examination Administration

ABNN contracts with PSI Services to provide examination services. PSI carefully adheres to industry standards for development of practice-related, criterion-references examinations to assess competency and is responsible for administering the SCRN exam and scoring and reporting examination results.

The SCRN exam is offered during three exam windows each year in computer-based testing (CBT) format. Examinations are delivered by computer at approximately 300 PSI test centers located throughout the United States and internationally. For a current list of sites visit: <http://online.goamp.com/CandidateHome/displayTCList.aspx?pExamID=21607>. Please note that you will be unable to register for a testing site until you have submitted and received confirmation of your completed online exam application by ABNN.

The CBT exam will be offered during the following windows:

- February 1–29
- May 1–31
- September 1–30

The examination is administered by appointment only. Appointment starting times may vary by location. Evening and Saturday appointments may be scheduled based on availability. Available dates will be indicated when scheduling your examination. Candidates are scheduled on a first-come, first-served basis.

Examinations will not be offered on the following U.S. holidays:

- New Year's Day
- Martin Luther King Jr. Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day (and the following Friday)
- Christmas Eve
- Christmas Day

VIII. Requests for Testing Accommodations

PSI complies with the Americans with Disabilities Act and strives to ensure that no individual with a disability— as defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment—is deprived of the opportunity to take the examination solely by reason of that disability. PSI will provide reasonable accommodations for candidates with disabilities. Candidates requesting special accommodations must call PSI at 833-333-4755 to schedule their examination once completing the online exam application.

If approved, candidates requesting special accommodations must call PSI at 833-333-4755 to schedule their examination.

1. Wheelchair access is available at all established test centers. Candidates must advise PSI at the time of scheduling that wheelchair access is necessary.
2. Candidates with visual, sensory, physical or learning disabilities that would prevent them from taking the examination under standard conditions may make a request for special accommodations and arrangements which will be reviewed by PSI.

Verification of the disability and a statement of the specific type of assistance needed must be made in writing to PSI at least 45 calendar days prior to your desired examination date by completing the Request for Special Examination Accommodations and Documentation of Disability-Related Needs forms. PSI will review the submitted forms and will contact you regarding the decision for accommodations.

IX. Scheduling an Examination Appointment

After you have registered for the examination and received notification of your eligibility by email and/or letter, you may schedule the examination by one of the following methods:

Schedule online: Schedule a testing appointment online at any time by using PSI's Online Application/Scheduling service at www.goAMP.com. To use this service follow these steps: Go to www.goAMP.com and select "Candidates".

Follow the simple step-by-step instructions to choose your examination program and register for the examination.

Schedule by phone: Call PSI toll-free at 833-333-4755 to schedule an examination appointment from 7:00 a.m. to 9:00 p.m. (Central Time) Monday through Thursday, 7:00 a.m. to 7:00 p.m. on Fridays, and 8:30 a.m. to 5:00 p.m. on Saturdays.

When you contact PSI to schedule an appointment, please be prepared to confirm a date and location for testing and to provide your name and candidate identification number (from PSI's email scheduling notice). All individuals are scheduled on a first-come, first-served basis.

X. Rescheduling an Exam Date

If you have already scheduled your date and time for the exam, you may reschedule your appointment ONCE at no charge to a date within your eligibility window by calling PSI at 833-333-4755 at least 2 business days prior to your scheduled appointment. The following schedule applies:

If your examination is scheduled on...	You must call PSI by 3:00 p.m. Central time to reschedule the
---	--

	examination by the previous...
Monday	Wednesday
Tuesday	Thursday
Wednesday	Friday
Thursday	Monday
Friday	Tuesday

XI. Exam Window Postponement

Candidates may not extend or postpone their exam eligibility window. If you do not complete the exam before your eligibility window expires, you will be required to submit a new application and pay all associated fees.

XII. Exam Application Cancellation

If you have applied to take the SCRN examination and have not scheduled the exam date and location, and you need to cancel the application, please contact ABNN at info@abnncertification.org.

Withdrawal requests received by the ABNN office **at least 7 days** prior to the exam eligibility end date will receive a refund of their application fee minus a \$100 administrative fee. Examination withdrawals received by the office fewer than 7 days prior to the exam eligibility end date will **receive no refund**.

Missed Appointments and Forfeitures

You will forfeit your examination registration and all fees paid to take the examination under the following circumstances:

- You do not complete the audit, if selected.
- You wish to reschedule an examination but fail to contact PSI at least 2 business days prior to the scheduled testing session.
- You wish to reschedule a second time.
- You do not sit during your exam eligibility period.
- You appear more than 15 minutes late for an examination.
- You fail to report for an examination appointment.

A new, complete application and examination fee are required to reapply for examination.

XIII. Inclement Weather, Power Failure, or Emergency

In the event of inclement weather or unforeseen emergencies on the day of an examination, PSI will determine whether circumstances warrant the cancellation and subsequent rescheduling of an examination. The examination will usually not be rescheduled if the test center personnel are able to open the test center.

Visit the www.goAMP.com website prior to the examination to determine if PSI has been advised that any test centers are closed. Every attempt is made to administer the examination as scheduled; however, should an examination be canceled at a test center, all scheduled candidates will receive notification following the examination regarding rescheduling or reapplication procedures.

If power to a test center is temporarily interrupted during an administration, your examination will be restarted. The responses provided up to the point of interruption will be intact, but for security reasons, the questions will be scrambled.

XIV. Computer-Based Testing (CBT) Examination Procedures

Taking the Examination

Your examination will be given by computer at a PSI test center. You do not need any computer experience or typing skills to take your examination. On the day of your examination appointment, report to the test center no later than your scheduled testing time. Look for signs indicating PSI test center check-in. **If you arrive more than 15 minutes after the scheduled testing time, you will not be admitted.**

Identification

To gain admission to the test center, you must present two forms of identification, including one with a current photograph. Both forms of identification must be valid and include your current name and signature. You will also be required to sign a roster for verification of identity. You **MUST** bring one of the following*:

- Driver's license with photograph
- State identification card with photograph
- Passport
- Military identification card with photograph.

**No forms of temporary identification will be accepted.*

The second form of identification must display your name and signature for signature verification (e.g., credit card with signature, social security card with signature, employment or student ID card with signature). If your name on these documents is different than it appears on your identification, you must bring proof of your name change (e.g., marriage license, divorce decree, or court order).

Test Center Security

PSI administration and security standards are designed to ensure all candidates are provided the same opportunity to demonstrate their abilities. The test center is continuously monitored by audio and video surveillance equipment for security purposes.

The following security procedures apply during the examination:

- Examinations are proprietary. No cameras, notes, tape recorders, pagers, or cellular/smart phones are allowed in the testing room. Possession of a cellular/smart phone or other electronic devices is strictly prohibited and will result in dismissal from the examination.
- Calculators are not necessary as all calculations found on the examination can be performed without the aid of a calculator. However, if you wish to do so you are permitted to bring a personal calculator and use it during the examination. The only type of calculator permitted is a simple battery-powered pocket calculator that does not have an alphanumeric keypad and does not have the capability to print or to store or retrieve data. You **MUST** present your calculator to the examination proctor for inspection **PRIOR** to the start of the examination. Using a calculator during the examination that has **NOT** been inspected may result in dismissal from the examination.
- No guests, visitors, or family members are allowed in the testing room or reception areas.

Personal Belongings

No personal items, valuables, or weapons should be brought to the test center. Only wallets and keys are permitted. Coats must be left outside the testing room. You will be provided a soft locker to store your wallet and/or keys with you in the testing room. You will not have access to these items until after the examination is completed. Please note the following items will not be allowed in the testing room except securely locked in the soft locker:

- watches
- hats

Once you have placed everything into the soft locker, you will be asked to pull out your pockets to ensure they are empty. If all personal items will not fit in the soft locker you will not be able to test. The site will not store any personal belongings. If any personal items are observed in the testing room after the examination is started, the administration will be forfeited.

Examination Restrictions

- Pencils will be provided during check-in.
- You will be provided with one piece of scratch paper at a time to use during the examination, unless noted on the sign-in roster for a particular candidate. You must return the scratch paper to the supervisor at the completion of testing or you will not receive your score report.

- No documents or notes of any kind may be removed from the test center.
- No questions concerning the content of the examination may be asked during the examination.
- Eating, drinking, or smoking will not be permitted in the test center.
- You may take a break whenever you wish, but you will not be allowed additional time to make up for time lost during breaks.

Misconduct

If you engage in any of the following conduct during the examination you may be dismissed, your scores will not be reported, and examination fees will not be refunded. Examples of misconduct are when you:

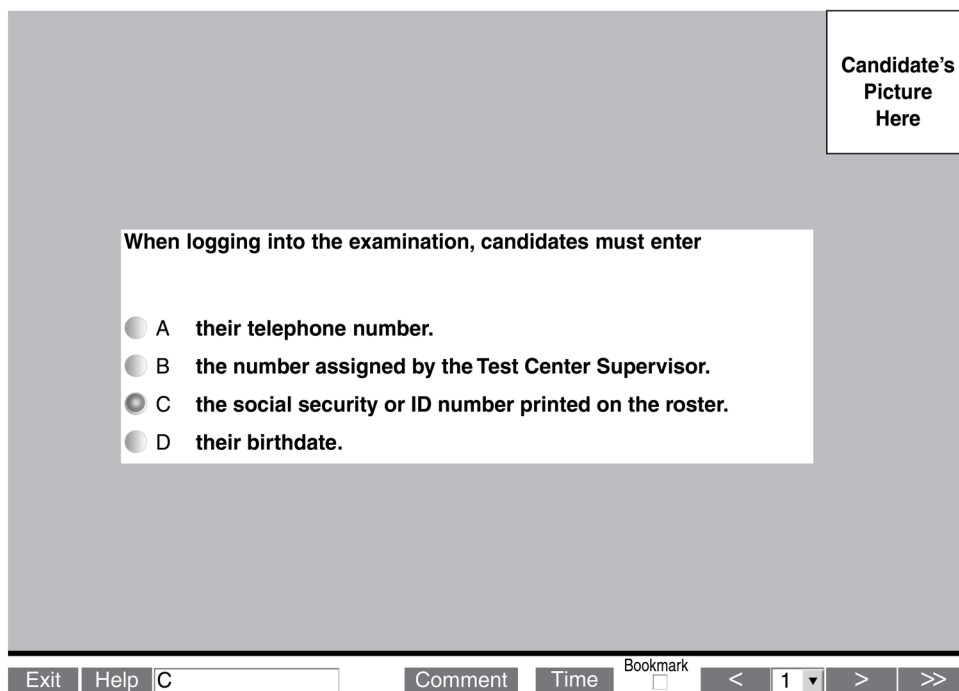

- create a disturbance, are abusive, or otherwise uncooperative
- display or use electronic communications equipment such as pagers, cellular/smart phones
- talk or participate in conversation with other examination candidates
- give or receive help or are suspected of doing so
- leave the test center during the administration
- attempt to record examination questions or make notes
- attempt to take the examination for someone else
- are observed with personal belongings
- are observed with notes, books, or other aids without it being noted on the roster.

Practice examination

Prior to attempting the timed examination, you will be given the opportunity to practice taking an examination on computer. The time you use for this practice examination is not counted as part of your examination time. When you are comfortable with the computer testing process, you may quit the practice session and begin the timed examination.

Timed examination

Following the practice examination, you will begin the timed examination. Before beginning, instructions for taking the examination are provided on-screen. The examination contains 170 questions. Three hours are allotted to complete the examination. The following is a sample of what the computer screen will look like when candidates are attempting the examination:

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time limit. You may click on the “Time” button in the lower right portion of the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The time feature may also be turned off during the examination.

Only one examination question is presented at a time. The question number appears in the lower right portion of the screen. The entire examination question appears onscreen (i.e., stem and four options labeled: A, B, C, and D). **Indicate your choice by either entering the letter of the option you think is correct (A, B, C, or D) or clicking on the option using the mouse.** To change your answer, enter a different option by typing A, B, C, or D or clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any questions, click the backward arrow (<) or use the left arrow key to move backward through the examination.

A question may be left unanswered for return later in the examination session. Questions may also be bookmarked for later review by clicking in the blank square to the right of the Time button. Click on the double arrows (>>) to advance to the next unanswered or bookmarked question on the examination. To identify all unanswered and bookmarked questions, repeatedly click on the double arrows (>>). When the examination is completed, the number of questions answered is reported. If not all questions have been answered and there is time remaining, return to the examination and answer those questions. Be sure to answer each question before ending the examination. **There is no penalty for guessing.**

Online comments may be entered for any question by clicking on the Comment button to the left of the Time button. This opens a dialog box where comments may be entered. Comments will be reviewed, but individual responses will not be provided.

XV. Notification of Examination Results

1. All exam candidates will be notified of their pass/fail status with an explanation of their scaled score and the passing scaled score at the testing site. Certificates will be mailed to those who pass within 4-6 weeks of their examination date.
2. It is the candidate's responsibility to notify the ABNN office of any errors or changes in contact information prior to the examination. A \$25 fee will be assessed to correct certificates with misspelled names if the candidate does not follow the above instructions. CBT candidates are prompted to verify name and address information when scheduling their exam online.
3. In computer-delivered testing, the computer accepts responses from a keyboard or mouse in digitized form. As a result, computer-administered testing eliminates problems that may have previously arisen with scanning paper-and-pencil answer sheets, since all responses are recorded by candidates during their examination. However, verification of examination scores from electronic responses can be requested if **received by** PSI in writing within 90 days of the exam date. The verification results are sent to the candidate within six (6) weeks. The candidate must assume the cost of rescoring.

XVI. Confidentiality of Examination Results

Examination results are released only to the candidate at the close of the exam. In response to specific inquiries, and with permission of the individual SCRNs, verification of current SCRNs status will be provided. Group data without individual identifying information may be used for research and study purposes, and may be released to other groups with a specific interest in nursing certification.

XVII. Retaking the Examination

Candidates who do not achieve a passing score may reapply for subsequent examinations. Candidates are eligible to test one time per examination window, but may not take the exam more than three times in 12 months. Repeat candidates must submit a new application and full examination fee.

XVIII. Duration of Certification

SCRN certification is effective for a period of five (5) years. The actual expiration date of a SCRN certificate is December 31st of the 5th year after certification (i.e., certification of SCRNs certified in February, May, or September 2020 expires on December 31, 2025). To renew certification prior to the expiration date, the certificant may either retake the certification exam or submit documentation of the required continuing education contact hours and work hours in stroke nursing during the 5th year of the certification cycle. Apply to recertify by the October 1st early bird deadline to avoid an \$85 late fee. Continuing education credits begin to be eligible toward recertification effective immediately following the month of successful examination. You may track your CE's online at www.abnncertification.org throughout your recertification cycle. ABNN will provide reminder information in the middle of the year that the candidate is due to recertify. However, it is ultimately the responsibility of the SCRN to initiate the recertification process. Applications for recertification will not be accepted prior to the 5th year of the certification cycle with an early bird application deadline of October 1st.

XIX. The SCRN Credential

Each passing candidate will receive a certificate indicating attainment of certification. Successful completion of the examination entitles the candidate to use the credential SCRN. Please note, however, that the SCRN does not replace use of the designation, RN.

XX. Revocation of Certification

Causes for revocation of certification include:

- The SCRN did not possess the required qualification and requirements for the examination, whether or not such deficiency was known to ABNN prior to the examination or at the time of issuance of the certificate;
- The SCRN made a material misstatement or withheld information on the application or in any representation to ABNN, whether intentional or unintentional;
- The SCRN engaged in irregular practices in connection with an examination, whether or not such practices had an effect on the performance of the SCRN on an examination;
- There has been a limitation or termination of any right of the SCRN associated with the practice of stroke nursing in any state, province or country, including the imposition of any requirement of surveillance, supervision or review by reason of violation of a statute or governmental regulation, disciplinary action by any nursing licensing authority, entry into a consent order, or voluntary surrender of license.

No certification shall be revoked unless the SCRN concerned is notified of the intent of ABNN and has an opportunity for a hearing before a select committee of ABNN. Such notification shall be sent by certified mail no less than 30 days prior to the hearing.

XXI. Irregularities in Testing

In addition to Revocation of Certification, applicants should also understand that ABNN may or may not require a candidate to retake the examination, or a portion of the examination, if presented with sufficient evidence that the security of the examination has been compromised, notwithstanding the absence of any evidence of a candidate's personal involvement in such activities.

XXII. Denial of Application and Appeal

Application to take the examination will be denied if the applicant is deemed ineligible for certification, or if documentation does not meet the requirements listed. Falsification of the application, including failure to provide material information, is grounds for denial of the application or for denial of certification. In such cases, the applicant will be notified in writing of the specific reason. There can be no appeal for failure to achieve a passing score on the examination, lack of current RN license, or failure to apply by the deadline. Any applicant whose application for certification is denied approval will automatically be sent information about how to appeal the decision, including steps in the appeal process and additional information required. Applicants denied application approval will receive a refund of the application fee, minus a \$100 administrative fee. *Note: There is no refund if an applicant fails to complete an audit.*

XXIII. Copyrighted Examination Questions

All examination questions are the copyrighted property of ABNN. It is forbidden under federal copyright law to copy, reproduce, record, distribute or display these examination questions by any means, in whole or in part. Doing so may subject the candidate to severe civil and criminal penalties.

The Examination

The SCRN examination is a generalist exam, and is not intended to emphasize any particular level of care nor any particular developmental level. The exam consists of 170 multiple-choice items with a total testing time of **three (3) hours**. Twenty (20) out of the 170 items are pretest items, which are not scored. (Note: the examination may include additional items that are being tested for future use.) Three levels of knowledge are tested: knowledge; interpretation; and problem solving and evaluation. The following lists include some of the actions associated with each of the knowledge levels.

Knowledge	Interpretation	Problem Solving and Evaluation
Define	Interpret	Compose
Repeat	Apply	Plan
Record	Use	Propose
List	Distinguish	Formulate
Describe	Analyze	Judge
Recognize	Compare	Rate
Explain	Solve	Value
Report	Inspect	Select
Review	Examine	Organize
Relate	Categorize	Evaluate

XXIV. Commonly Asked Questions about the SCRN Examination

How is the passing score determined?

The passing score is established by a systematic criterion-referenced procedure that employs the judgment of neuroscience nursing experts from around the country as well as the assistance of professional psychometricians from PSI. With this process, the raw score (i.e., number of correct answers) required to pass an examination form is established; that score relates to the number of correct answers that a minimally competent (borderline expert) candidate would be expected to provide. The final determination of the passing score is made by the ABNN Board of Trustees.

What is a scaled score?

Scaled scores are used to provide a consistent scale of measurement, so that from one form of the test to the next, the same scaled score represents the same level of knowledge. To calculate a scaled score, the raw score required to pass is first set equal to 200. An analogous situation is with temperature: 0 degree and 32 degrees both represent freezing on different temperature scales. Raw scores below the passing point are converted in linear fashion to scaled scores below 200; those above the passing point are similarly converted to scaled scores above 200. Although much care is taken to ensure that all forms of the examination are similar, new forms may vary somewhat in level of difficulty from earlier ones. A raw score on one may not be comparable, therefore, to a raw score on a different version. To prevent candidates who took a less difficult form of the examination from having an unwarranted advantage over those who took a slightly more difficult form, raw scores are converted to scaled scores that represent comparable levels of achievement.

The test consists of 170 questions; 150 are used to compute candidates' scores and 20 are unscored and being pretested for possible use on future test forms.

What is the best way to study for the exam?

There is no best way to study. Some suggested preparation materials include, but are not limited to:

AANN Comprehensive Review for Stroke Nursing
AANN Stroke Certified Registered Nurse Review Course
Core Curriculum for Neuroscience Nursing
SCRN Self-Assessment Examination

Note: ABNN does not endorse any educational product or program.

XXV. Scope of the Examination

Attainment of SCRN certification includes successful completion of a general stroke nursing exam that is intended to determine if the candidate possesses the basic knowledge needed to care for stroke patient populations competently. Stroke nursing includes caring for patients across the lifespan and in a variety of settings. While questions may vary in their level of difficulty, the exam tests the candidate's knowledge of core stroke nursing principles.

XXVI. Examination Construction

ABNN conducted a role delineation survey during 2016-2017. The survey examined stroke health problems, human responses in stroke related health problems and specific nursing interventions used to describe Stroke Nursing practice. Based on the responses, the ABNN Role Delineation Task Force defined a framework for construction of the examination. Following are a detailed content outline of the exam, by categories of disorders, and the exam matrix showing the relative weights of the exam by disorder and type of nursing intervention. Although not all content or human responses are part of the SCRN Examination Matrix, the core of Stroke Nursing knowledge required for specialty practice is clearly represented.

XXVII. ABNN SCR N EXAM

(Based on 2016-2017 Role Delineation Study)

Disorders - Detailed Content Outline

I. Anatomy, Physiology, and Etiology of Stroke (31 items)

- A. Correlate deficits or expected complications to site of injury.
- B. Identify physiologic changes at the cellular level (e.g., penumbra).
- C. Apply knowledge of basic vascular anatomy to stroke symptoms.
- D. Apply knowledge of basic brain structures.
- E. Recognize stroke syndromes (e.g., Middle Cerebral Artery Syndrome, Homer's Syndrome, Wallenberg Syndrome).
- F. Identify associated stroke disorders (e.g., etiology).
- G. Understand stroke mimics.
- H. Define stroke types (e.g., ischemic, hemorrhagic).
- I. Understand the role of neuroplasticity in stroke recovery.

II. Hyperacute Care (35 items)

- A. Initial triage
 - 1. Communicate with pre-hospital personnel.
 - 2. Assess ABCs.
 - 3. Establish chief complaint.
 - 4. Identify stroke signs and symptoms.
 - 5. Activate the stroke response team (e.g., chain of survival).
- B. Implement door to treatment times (e.g., protocol and pathways).
- C. Assessment
 - 1. Facilitate urgent diagnostics.
 - 2. Collect focused medical history.
 - 3. Perform baseline neuro assessment.
 - 4. Understand implications of various stroke scores (e.g., NIHSS, Hunt and Hess, GCS, ABCD 2, ICH).
- D. Treatment considerations
 - 1. Maintain oxygenation.
 - 2. Maintain hydration.
 - 3. Assess swallow ability.
 - 4. Manage blood pressure.
 - 5. Manage blood glucose.
 - 6. Manage medications.
- E. Thrombolytic therapy
 - 1. Calculate dosing.
 - 2. Identify inclusion and exclusion criteria.
 - 3. Administer thrombolytic therapy per protocol.
 - 4. Provide post-administration care.
 - 5. Identify post-administration complications.
- F. Patient disposition
 - 1. Stabilize patients for admission or transfer.
 - 2. Identify appropriate level of care (e.g., stroke unit, certified stroke center).
- G. Describe and facilitate advanced interventions for ischemic strokes (e.g., mechanical embolectomy, intra-arterial thrombolysis, hemicraniectomy).
- H. Describe and facilitate interventions for hemorrhagic strokes.
 - 1. Correct coagulopathy.
 - 2. Use reversal agents for anticoagulation.
 - 3. Understand need for ventriculostomy.
 - 4. Manage ICP.
 - 5. Understand surgical decompression.

III. Acute Care (46 items)

A. Generalized stroke care

1. Assessment

- a. Conduct comprehensive assessment, including neurological examination (e.g., NIHSS, GCS).
- b. Correlate patient's history with signs and symptoms.
- c. Prioritize patient's needs based on assessment (e.g., seizure prophylaxis, communication abilities, mobility).
- d. Facilitate diagnostic tests according to stroke guidelines (e.g., echo, MRI, carotid studies, lab work).
- e. Monitor patient safety before, during, and after procedures.

2. Plan of Care

- a. Collaborate with the multidisciplinary team.
- b. Monitor, report, treat, and document:
 - i. Neuro assessments and vital signs
 - ii. Cardiac rate and rhythm
 - iii. Oxygenation and ventilation
 - iv. Pain
 - v. Blood glucose
 - vi. Body temperature
 - vii. Increased intracranial pressure (ICP)
- c. Implement safety measures:
 - i. Aspiration precautions
 - ii. Fall precautions
 - iii. Seizure precautions
 - iv. Skin precautions
 - v. Infection prevention protocols
 - vi. VTE prophylaxis
 - vii. Stress ulcer prophylaxis
- d. Provide care measures to address:
 - i. Patient positioning (e.g., affected extremities, splinting, turning)
 - ii. Early mobilization
 - iii. Range of motion
 - iv. Elimination (i.e., bowel and bladder management)
 - v. Activities of daily living (ADLs)
- e. Therapeutic environment:
 - i. Establish appropriate levels of stimulation.
 - ii. Provide orientation measures.
 - iii. Establish alternative means of communication if necessary.
 - iv. Adapt environment according to patient's deficit.
 - v. Promote sleep hygiene (e.g., light, noise).
- f. Spiritual and psychosocial care:
 - i. Encourage verbalization of feelings.
 - ii. Identify positive coping mechanisms.
 - iii. Respect patient's culture.
 - iv. Assess patient's healthcare beliefs.
 - v. Facilitate patient's spiritual needs.
 - vi. Assess and manage depression, anxiety, and fatigue.
- g. Facilitate care goals and decision making regarding:
 - i. Discharge planning
 - ii. Palliative care
 - iii. End-of-Life care
- h. Provide individualized education to patients and caregivers.
- i. Manage nutrition (i.e., specialty diets, consistency of diet, alternate forms of feeding)

3. Quality stroke metrics
 - a. Participate in quality improvement projects.
 - b. Facilitate compliance with quality metrics (e.g., VTE prophylaxis, patient perception of care).
- B. Ischemic stroke
 1. Facilitate diagnostic studies.
 2. Manage blood pressure (e.g., permissive hypertension, orthostatic hypotension).
 3. Recognize signs of reperfusion syndrome.
 4. Manage hydration (e.g., IV solutions, oral fluid intake).
 5. Manage and assess patient post-thrombolytic administration:
 - a. Frequency of monitoring
 - b. Angioedema
 - c. Hemorrhagic conversion
 - d. Other bleeding
 6. Manage patients following interventional procedures:
 - a. Site and distal extremity assessment
 - b. Complications (e.g., hematoma, arterial dissection, arterial thrombosis, pseudo-aneurysms, bleeding)
 7. Understand treatment options:
 - a. Endovascular management (e.g., arterial stenting)
 - b. Patent foramen ovale (PFO) management
 - c. Atrial fibrillation management
 - d. Surgical intervention (e.g., carotid endarterectomy, craniectomy)
 - e. Medical management
- C. Hemorrhagic stroke
 1. Facilitate diagnostic studies.
 2. Monitor and mitigate vasospasm (e.g., transcranial Doppler, angiography, medications).
 3. Manage fluid and electrolyte balance (e.g., sodium, magnesium, osmolarity).
 4. Manage blood pressure:
 - a. Aneurysmal subarachnoid
 - b. Intracerebral hemorrhage
 5. Understand treatment options:
 - a. Endovascular management (e.g., coiling, embolization)
 - b. Surgical intervention (e.g., clipping, craniotomy and craniectomy)
 - c. CSF diversion
 - d. Ventriculostomy
 - e. Shunt
 - f. Medical management

IV. Post-acute Care (19 items)

- A. Define roles of the multidisciplinary team.
- B. Understand levels of rehabilitative care (e.g., acute rehab, subacute rehab, home health, outpatient rehab).
- C. Facilitate referrals to community resources (e.g., support group).
- D. Identify and manage rehabilitation issues (e.g., spasticity, cognition, psychosocial, dysphagia, elimination).
- E. Multidisciplinary plan of care
 1. Involve patient and caregivers in decision making and care plan.
 2. Identify goals for rehabilitation.
 3. Assist patient in performing ADLs.
 4. Collaborate regarding medication management.
 5. Facilitate the discharge planning process.
 6. Demonstrate transfer techniques and assistive devices.
 7. Assist patient toward maximum functional capacity.
 8. Involve patient in activities that will enhance self-esteem.
 9. Use assessment scales (e.g., modified Rankin, Barthel, Functional Independence Measure [FIM]).
 10. Assess caregiver dynamics.

11. Assess psychosocial impact of stroke.
- F. Provide and reinforce stroke education:
 1. Risk factor management
 2. Home care
 3. Environmental safety
 4. Activity and exercise
 5. Medication regimen
 6. Signs and symptoms requiring activation of EMS
 7. Signs and symptoms requiring medical follow-up
 8. Nutrition

V. Primary and Secondary Preventative Care (19 items)

- A. Assessment
 1. Identify modifiable and non-modifiable risk factors.
 2. Review diagnostic study results (e.g., imaging, laboratory).
- B. Plan of Care
 1. Individualize the plan of care.
 2. Provide education about stroke, lifestyle changes, and medical exams.
 3. Identify patients' limitations to care treatments (e.g., financial, social).
 4. Collaborate with multidisciplinary teams.
 5. Provide information about medication management.
- C. Community health education
 1. Provide education on stroke risk factors, symptoms, and activation of EMS.
 2. Identify community resources for stroke prevention.
 3. Provide patients with community resources for stroke prevention.
 4. Recommend patients identified as high risk for a stroke to see a medical provider.

REQUEST FOR SPECIAL EXAMINATION ACCOMMODATIONS

If you have a disability covered by the Americans with Disabilities Act, please complete this form and provide the Documentation of Disability-Related Needs on the next page so your examination accommodations can be processed efficiently. The information you provide and any documentation regarding your disability and your need for examination accommodations will be treated with strict confidentiality.

Candidate Information

Candidate ID Number _____

Name (Last, First, Middle Initial, Former Name) _____

Mailing Address _____

City _____ State _____ Zip/Postal Code _____

Daytime Telephone Number _____

Special Accommodations

I request special accommodations for the _____ examination.

Please provide (check all that apply):

_____ Reader

_____ Reduced distraction environment

_____ Extended examination time (time and a half)

_____ Other special accommodations are needed (please specify below)

Comments: _____

PLEASE READ AND SIGN: I give my permission for my diagnosing professional to discuss with PSI staff my records and history as they related to the requested accommodation.

Signature _____ Date _____

Return this form with your Documentation of Disability-Related Needs form to:

PSI, 18000 W. 105th Street, Olathe, KS 66061-7543.

If you have any questions, call Candidate Services at 833.333.4755.

DOCUMENTATION OF DISABILITY-RELATED NEEDS

Please have this section completed by an appropriate professional (education professional, physician, psychologist, psychiatrist) to ensure that PSI is able to provide the required examination accommodations.

Professional Documentation

I have known _____ since _____ / _____ / _____ in my capacity as a

Candidate Name

Date

Professional Title

The candidate discussed with me the nature of the examination to be administered. It is my opinion that, because of this candidate's disability described below, he or she should be accommodated by providing the special arrangements listed on the Request for Special Examination Accommodations form.

Description of Disability:

Signed _____ Title _____

Printed Name _____

Address _____

Telephone Number _____

Date _____ License Number (if applicable) _____

Return this form with your request for accommodations form to:

PSI, 18000 W. 105th Street, Olathe, KS 66061-7543.

If you have any questions, call Candidate Services at 833.333.4755.

REQUEST FOR DUPLICATE SCR N EXAMINATION SCORE REPORT

Directions: You may use this form to ask PSI, the testing agency, to send you a duplicate copy of your score report. This request must be postmarked no later than one year after the examination administration. Proper fees and information must be included with the request. Please print or type all information in the form below. Be sure to provide all information and include the correct fee, or the request will be returned.

Fees: \$25 U.S. Dollars per copy. Please enclose a check or money order payable in U.S. Dollars to PSI Services Inc. Do not send cash. Write your candidate identification number on the face of your payment.

Mail to: PSI

SCR N Examination
18000 W. 105th Street
Olathe, KS 66061-7543, USA

Amount enclosed: \$ _____

Examination Date: _____

Print your current name and address:

Name _____ Candidate ID _____

Street _____ City _____

State/Prov. _____ Zip/Postal Code _____ Country _____
